

Found Poetry – Canada’s Residential Schools

Each group will read through the article provided to them that details the testimony of a survivor of Canada’s Indian Residential School Program. Read through the article and highlight the text that details the experience of children who were forced to attend – what words or phrases jump out at you? shock you?

Using the testimonies, construct a “Found Poem” based on your article. The rules for a Found Poem are simple:

- You may delete any words that you like
- You may rearrange any words that you like
- You cannot add or alter any words
